This project can provide modest Guyana-centric communication materials on the virus and remote educational support to children in orphanages, a number of care packages, masks and sanitizing supplies, and psychological support.

It is powered by students and staff of the University of Guyana's Psychology and Social Work Programmes in collaboration with PACE, GTT, and other generous volunteers and donors in support of the national effort at keeping Guyana safe from COVID-19.

**Resources are modest so we will adhere to strict eligibility criteria as follows:**

- (1) A UG staff or student or a vulnerable group associated with UG (Pensioners, Alumni)
- (2) Have recently become unemployed during the months December - March and falls within an income bracket of below \$100000 per month
- (3) You have children
- (4) You are a front line worker
- (5) You are currently displaced
- (6) Persons with disabilities

**Confidentiality and Respect are assured. We will do what we can to help.**

**UG CARES.**

**When duty calls we rise . In safety. In Wisdom . With Integrity.**
